

Family Education / Family Programs Calendar for 2015-2016/5776

What does Family Education mean for our family? Family Education is an integral part of our school program and community life at KS. We offer experiential educational programs that complement our school curriculum for students and their parents at every grade level, as well as Shabbat and holiday celebrations to help strengthen our families and the tie between families and the synagogue, and provide support for fostering joyful Jewish life at home.

The family experience is at the heart of what we do together. Through conversation, play, study, re-enactment, art, music, and the work of *Tikkun Olam*, repairing our world, our families experience the gift of *sacred family time* in a Jewish context. Family Ed programming enables parents new to Judaism to learn and be challenged without being intimidated, and to comfortably partner in their children's learning.

Through parallel adult programming and group offerings JUST for parents, parents have an opportunity for deeper, more enriched learning and support, which will enable them to more comfortably take a lead in teaching Judaism and modeling Jewish values for their children at home.

We look forward to having you and your family joining us in Jewish learning and celebration!
